

# EndoFlate GI

## Keep Endoscope Repair Costs Down with the Touch of a Button

The Endoflate GI is an advanced flexible endoscope inflation system designed to rapidly, and precisely, inflate the endoscope for visual inspection of leaks in the processing sink. The advanced microcontroller provides a simple, visual indication that proper inflation has been achieved so that leak inspection can begin. A digital timer shows the time of each cycle. "Smart" inflation sensors maintain inflation to prevent fluid ingress during the inspection or manual cleaning operation.

### Product Properties:

- No Hand Pumping
- Simple Operation
- Affordable Pricing
- Safe, Low Voltage
- Programmable Interface
- PSI, BAR, mmHG,
- Adjustable Pressure Ranges
- Calibration
- Rapid Inflation / Deflation

### Product Specifications:

Specification	Description
Dimensions	5.5" H x 6.1" W x 6.7" D 14cm H x 15.5cm W x 17cm D
Case Rating	IPX0
Inflation Test Pressure	1-5 psi (.07-.34 bar)
Power Supply / Voltage	Wall Mount Type, In: 110-240 VAC 1A 50-60 Hz, Out: 12 VDC 1.5A
Unit Weight	3.6 lbs (1.6 Kg)
Approvals	CAN/CSA-C22.2 No. 61010-1-04 UL Std. No. 61010-1 (2 <sup>nd</sup> Edition) EN 61010-1:2010

### Ordering Details:

**Product Code:** 7260040  
Knight EndoFlate GI with power supply adapters for North America, North Asia, Europe, UK, China, Australia.
